Very Important!!!

The arrival flight for hand carry shipments to Munich must be a **non** EC flight. This means that the first point of entry into the European Community (EC) for the travelling person must be Munich. Therefore, we recommend to use direct flights from your country to MUC or transit points out of the EC (e.g. via UAE or Switzerland) Otherwise, you must declare your goods at the first point of entry into the EC by yourself. No support by Brink's possible.
